

SPTF

SUMMIT POINT TRAINING FACILITY

UNLIMITED POSSIBILITIES

Providing exportable world-class training and RDT&E support, minutes from Washington DC.

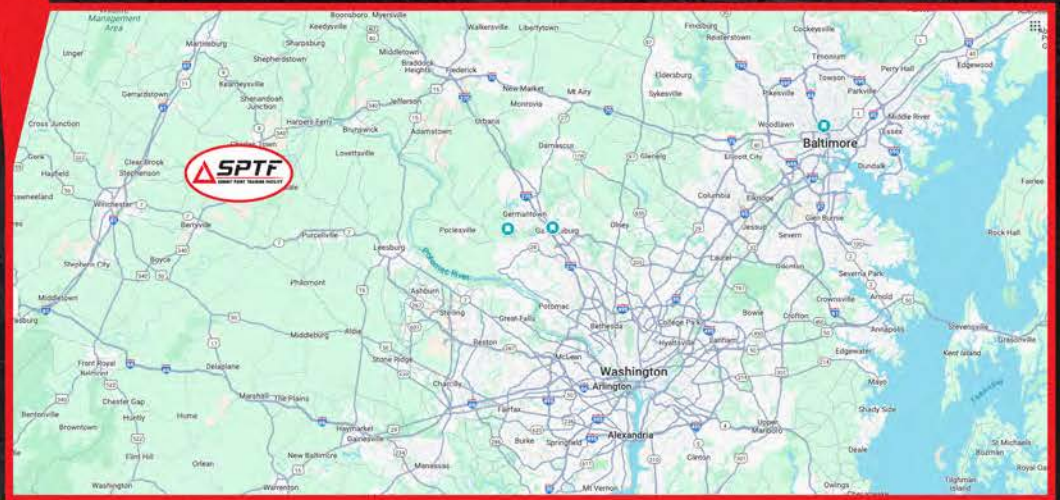

COMPANY OVERVIEW

THE SUMMIT POINT TRAINING FACILITY (SPTF)

Founded in 1969, Summit Point Training Facility (SPTF) is a privately held business recognized as a premier provider of security and counterterrorism training. Serving U.S. government, Foreign government, commercial, and industry partners, SPTF delivers tailored, high-quality training programs to address the rapidly evolving global security landscape. Located an hour from Washington, D.C., managing 1500 acres ideally situated to provide both comprehensive training and cutting-edge research, development, testing, and evaluation (RDT&E) services.

Washington, D.C.

DRIVING AND VEHICLE DYNAMICS

ROAD CIRCUITS, UNIMPROVED/OFF-ROAD COURSES, AND MORE

Advanced Driver Training: Our courses cover force-protection counter-terror, evasive driving, off-road driving, armored vehicle driving, and security driving, taught by expert instructors with real-world field experience.

MEDICAL TRAINING

FULLY IMMERSIVE + HIGH FIDELITY

Our EMS schoolhouse combines nationally certified programs with hyper-realistic scenario simulations, preparing students to provide life-saving care under high-pressure conditions. A fully immersive experience bringing high fidelity simulation to the courses with the use of three CAE Apollo™ simulators.

FIREARMS TRAINING

CLIENT DRIVEN COURSES ON A PER-COURSE, PER-CUSTOMER BASIS

SPTF brings two on-site range complexes with distances ranging from 50 to 300 yards, including a reactive steel range. Amenities include loading tables, adjacent classrooms, overhead cover, propane heaters (in winter) and on-site food delivery capability. SPTF firearms instructors have decades of experience in US Special Operations, US Conventional Military, and Tactical Law Enforcement.

SPECIAL SKILLS TRAINING

COMBATIVES AND ACTIVE SHOOTER

SPTF provides hand-to-hand combatives training, knife combat, utilization of a pistol during hand-to-hand engagements, surveillance detections, methods of entry, etc. Additionally, SPTF has developed a nationally accredited active shooter training and assessment program.

An aerial photograph of a large, complex testing facility. The facility features several winding tracks, some of which are paved and others that appear to be under construction or in a different state. There are numerous buildings, some with blue roofs, and a large parking lot. The facility is surrounded by green fields and trees. The text "RESEARCH, DEVELOPMENT, TESTING & EVALUATION (RDT&E)" is overlaid in white, and "UNLIMITED POSSIBILITIES" is overlaid in red below it.

RESEARCH, DEVELOPMENT, TESTING & EVALUATION (RDT&E)

UNLIMITED POSSIBILITIES

SPTF supports government and commercial clients with an extensive range of RDT&E services. Our facility acts as a testbed for innovative solutions to emerging security challenges, offering full wrap-around logistics, procurement, and warehousing support. We provide tailored, client-specific services to ensure seamless project execution and support, positioning SPTF as a critical partner for both training and technology development.

RDT&E: UAS / CUAS

CLASS E AND CLASS G UNRESTRICTED AIRSPACE FOR UAS/CUAS AND AUTONOMOUS SYSTEMS TESTING

Operating within Class E and Class G airspace, SPTF offers an ideal setting for testing and evaluating UAS, CUAS, and autonomous vehicle systems. Class E airspace allows for high-altitude testing, while Class G airspace provides flexibility for low-altitude operations, ensuring that a wide range of flight scenarios can be safely conducted. This combination allows seamless testing of sensor integration and AI-driven solutions without the typical regulatory restrictions encountered elsewhere.

RDT&E

CUSTOMIZABLE OFFICE AND LABORATORY SPACES

SPTF offers modern office spaces, laboratories, and classrooms with high-speed internet, advanced A/V systems, and comprehensive IT support, creating an ideal environment for research teams to collaborate and innovate. These facilities can be tailored to the needs of both government and commercial clients.

The background of the entire page is a grayscale aerial photograph of a complex test track with various curves and straightaways. Overlaid on this are three color photographs: a road track on the left, a dirt track in the middle, and a blue track on the right.

RDT&E

DRIVING/VEHICLE TESTING

SPTF features five driving circuits designed to support the testing of autonomous vehicles, driver assistance technologies, and advanced mobility solutions. These circuits allow for the evaluation of real-world driving conditions, high-speed maneuvers, and other vehicle operations, providing a flexible and safe environment for commercial vehicle testing.

Summit Solutions Group is the expeditionary mission support arm of the Summit Point Training Facility. We specialize in delivering comprehensive solutions that ensure operational excellence and mission success. SSG is committed to providing exceptional training and support services tailored to meet the unique need of our clients both domestically and internationally.

- MISSION SUPPORT SERVICES
- TRAINING AND SUPPORT SERVICES
- CONSTRUCTION SERVICES AND MANAGEMENT
- FACILITIES SUPPORT SERVICES
- PROFESSIONAL ADVISORY SERVICES
